

WARNING!

PLEASE DO NOT ENTER THIS ROOM!

ROOM UNDER AUTOMATED DISINFECTION PROCESS!

DISINFECTION **PROCESS STARTED:**

Date:

Time:

DISINFECTION **PROCESS ENDS*:**

Date:

Time:

(OPERATIONS' TIME PLUS 120 MINUTES*)

- * The treated room **MUST REMAIN UNOCCUPIED FOR AT LEAST 120 MINUTES AFTER FOGGING**. This represents the minimal waiting time and means not that the room is safe to re-enter or reoccupy. Please read the Sanosil Q-Jet Manual for further details and appropriate protection measures.

When room re-entry is required before treatment process is completed or to perform a H₂O₂ (disinfectant) level check, proper personal equipment (PPE) including wraparound style goggles; respirator mask (filter class ABEKP3) filtering hydrogen peroxide and gloves should be worn to safely enter the room.
